

CARBON REMOVAL POLICY SUMMIT

Embedding carbon removal in Europe's evolving climate and industrial policy landscape

📍 16 SEPTEMBER

📅 The SQUARE, Brussels

PROGRAMME

Opening Plenary

Framing the system challenge

09:00 - 09:20 **Visionary speech**

09:20 - 10:20 **Introductory session**
Embedding carbon removal in Europe's evolving climate and industrial policy landscape

10:20 - 10:30 **Coffee break**

Governance level sessions

10:30 - 11:30 **International level**
International frameworks and cooperation dynamics

11:30 - 12:30 **European level**
CDR integration into the EU's post-2030 climate framework

12:30 - 13:30 **Lunch break**

13:30 - 14:30 **National level**
Member State policy design and implementation

14:30 - 15:30 **Local level**
Cities, regions, and project developers

in collaboration with
 **CITY CDR INITIATIVE**
Building Carbon Sink Cities

Parallel sessions

Translating policy into practice

15:30 - 17:00 **Public-Private Purchasing and Market Creation**

- Design of public-private purchasing mechanisms
- Governance, eligibility, and integrity considerations
- Interaction with compliance markets and public funding

Sector Integration - CDR in Industrial Transition Pathways

- Approaches to residual emissions in sectoral pathways
- The role of CDR alongside other decarbonisation options
- Implications for investment, infrastructure, and policy design

in collaboration with
 **BELLONA** **CCSI**
EUROPA

Project Deployment and Infrastructure Integration

- Permitting and siting challenges
- Integration with CO₂ transport, storage, and energy infrastructure
- Cross-border coordination and value chains

in collaboration with
 **Carbon Management Europe**

Closing

17:00 - 17:30 **Wrap up plenary**

17:30 - 19:00 **Networking session**

 **carbon gap**
